

NT Factor® Advanced Physicians Formula

NT Factor® B-Vitamin Plus

Item # 76680
150 Tablets

The Possible Benefits of NT Factor® Advanced Physicians Formula, a Food Supplement

- Combines NT Factor® membrane food with B vitamins and other nutrients
- NT Factor® supports the structural integrity & vitality of the membranes in the body's cells and mitochondria, including normal membrane permeability and ATP energy production
- NO Ephedra, caffeine, sugar, or other stimulants

Description

NT Factor® Advanced Physicians Formula combines patent-pending NT Factor® with vitamin B complex and vitamin E, minerals, α -ketoglutarate, L-carnitine, and L-tyrosine. NT Factor® supports the structural integrity and vitality of the body's cellular and mitochondrial membranes, thereby supporting healthy energy, and the other nutrients synergise well with the NT Factor® cellular and mitochondrial membrane nutrition.

The foundation of **NT Factor® Advanced Physicians Formula** is patent-pending NT Factor®, a 3-part nutrient complex. The heart of NT Factor® is a proprietary blend of polyunsaturated phosphoglycolipids called NT Factor® EnergyLipids, which is extracted and prepared using proprietary processes. NT Factor® also contains freeze-dried Bifido and Lactobacillus friendly bacteria, and foods and nutrient extracts that may provide nutritional support (prebiotic activity) for the probiotics.

The proprietary scientifically validated phosphoglycolipids in NT Factor® are present in research validated ratios of polyunsaturated phosphatidylcholine, glycolipids, and other polyunsaturated phosphatidyl nutrients, blended to optimise cellular uptake and membrane utilisation. They have been validated in clinical studies to support healthy cell membrane and mitochondrial membrane structure and function, including normal membrane

permeability, potential and enhancement of ATP energy production.

NT Factor® Advanced Physicians Formula contains a high potency B complex, featuring the preferred methylcobalamin form of B12, and high amounts of biotin, folic acid, niacinamide and pantothenic acid. **Alpha-ketoglutaric acid (AKG)** is a compound in the Krebs cycle, and is crucial for energy production in the inner mitochondrial membrane. It plays a role in the detoxification of ammonia to glutamine, and in reducing H₂O₂ to succinate, another compound of the Krebs cycle. AKG also has antioxidative effects on reactive oxygen and nitrogen species.

L-carnitine is synthesised in the liver, kidney, and brain, and utilised throughout the body, with high concentrations in skeletal and cardiac muscles. L-carnitine helps transport long-chain fatty acids across the inner mitochondrial membrane before beta-oxidation. **L-tyrosine** is involved in protein synthesis, and is a precursor for the synthesis of the catecholamines epinephrine, norepinephrine and dopamine, the thyroid hormones thyroxine and triiodothyronine, and the pigment melanin.

NT Factor® Advanced Physicians Formula is rounded out with foundational nutrients including the antioxidant **vitamin E**, and macrominerals **calcium** and **magnesium**.

Serving Size: 5 Tablets
Servings Per Container: 30

Amount Per Serving:

Vitamin E (as d-Alpha Tocopheryl Succinate)	47 IU
Vitamin B1 (as Thiamine HCl)	3.7 mg
Vitamin B2 (as Riboflavin)	4 mg
Niacin (as Niacinamide)	99 mg
Vitamin B6 (as Pyridoxine HCl)	10 mg
Folate (as Folic Acid)	800 µg
Vitamin B12 (as Methylcobalamin)	1 mg
Biotin	750 µg
Pantothenic Acid (d-Calcium Pantothenate)	25 mg
Calcium (as d-Calcium Pantothenate, Calcium Carbonate, Dicalcium Phosphate, Calcium Pyruvate)	398 mg
Phosphorus (as Dicalcium Phosphate)	102 mg
Magnesium (as Magnesium Oxide)	123 mg
Alpha-Ketoglutaric Acid	300 mg
Carnipure® L-Carnitine (as L-Carnitine L-Tartrate)	225 mg
L-Tyrosine	150 mg
NT Factor® Blend proprietary formula containing: Inulin, rice bran extract, NT Factor® EnergyLipids (soy), OptiMSM® methylsulfonylmethane, FOS, bromelain, PABA, pantethine, inositol, L-arginine, L-glycine, taurine, alpha lipoic acid, odour-modified garlic, spirulina, leeks stem powder, beet root fiber, B. bifidum, L. acidophilus, blackstrap molasses, sodium borate.	4 g

Other ingredients: Microcrystalline cellulose, vegetable stearic acid, croscarmellose sodium, vegetable magnesium stearate, silicon dioxide, pharmaceutical glaze (purified water, hydroxypropyl methylcellulose, vegetable glycerine)

Suggested Use: As a dietary supplement, 5 tablets daily (3 in the morning and 2 in the early afternoon), or as directed by a healthcare practitioner.
