For the Health of Your Patients:

All healthcare practitioners share common goals in regard to their patients; restore balance & homeostasis, and treat the underlying causes of pain, inflammation, and chronic health issues. One of the leading challenges to addressing these clinical goals is the presence of an overwhelming toxic load (endogenous and exogenous), which thereby impairs many pathophysiological systems, including Phase I and Phase II conjugation, impaired excretion, dysbiosis, increased gut permeability, macronutrient imbalances, and multiple enzymatic and micronutrient imbalances. These widespread physiological disturbances impair the body's ability to effectively handle health challenges, thus often resulting in chronic health issues which may prove to be resistant to traditional interventions.

For the Health of Your Practice:

The 10-Day BioDetox Kit was formulated with ease of use and patient compliance in mind. Great care went into the creation of this program whereby the liver-gastrointestinal connection and its resulting inflammation are addressed. Conveniently packaged, each 10-Day BioDetox Kit contains 2 bottles of NutriClear®, 1 bottle of Whey Protein Isolate, 1 bottle of Bio-Detox Packs™ (30 Packets) along with a shaker cup. Practitioners instruct their patients to follow an "anti-inflammatory" diet (included), and consume the 10-Day BioDetox Kit as follows:

Breakfast	Lunch	Mid-Afternoon Snack	Dinner
2 scoops Nutri-Clear® 1 scoop Whey Protein Isolate 1 packet Bio-Detox Packs™	Light, healthy lunch 1 packet Bio-Detox Packs™	2 scoops NutriClear® 1 scoop Whey Protein Isolate	Healthy dinner 1 packet Bio-Detox Packs™

For your convenience, and to facilitate patient education, a Practitioner's Guide and a unique Patient Guide are available. Entitled the "Easy 3-Step Bio-Detox", the manuals address all 3 stages of the detoxification process: Step I. Decreasing Inflammation, Step II. Metabolic Cleansing, and Step III. Regeneration & Repair. Please contact Nutri-Link Ltd on 08450 760 402 for further information on this optimal detoxification programme available exclusively through Biotics Research Corporation.
